Bizerte, Tunisia | Nationality: Tunisian | Available immediately | Open to relocation: UAE · Saudi Arabia · Qatar

PROFESSIONAL SUMMARY

Full Stack Developer with 2+ years of experience building and shipping production web applications with the MERN stack. Spent one year full-time in a 3-developer team delivering a complete e-commerce platform with JWT and Google authentication and an admin dashboard, and delivered 5 client websites as a freelancer for companies in maritime, trading, industrial and food export. Currently building CARTHAGEOS, a multi-tenant SaaS ERP. Trilingual in Arabic, French and English. Available immediately and open to relocation to the UAE, Saudi Arabia or Qatar.

TECHNICAL SKILLS

Frontend: React.js, Redux, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, Bootstrap, Responsive Design

Backend: Node.js, Express.js, RESTful APIs, Socket.io (real-time), JWT, bcrypt, Google OAuth

Database & Media: MongoDB (schema design, aggregation pipelines), Cloudinary

Tools & Delivery: Git, GitHub, cPanel deployment, SEO & performance optimization, Agile/Scrum

Familiar with: TypeScript, Next.js, PostgreSQL, SQL, Python (Pandas), Power BI

PROFESSIONAL EXPERIENCE

Full Stack Developer — JCD Commerce · Full-time · Tunisia — Sep 2025 – Aug 2026

- Built and maintained a full-stack MERN e-commerce platform (**jcdcommerce.com**) in a 3-developer team, covering storefront, product catalog, cart, orders and user management.
- Implemented authentication with **JWT in HTTP-only cookies**, **bcrypt** password hashing and **Google Sign-In**.
- Developed an admin dashboard for catalog, inventory and order management, backed by Node.js/Express REST APIs and MongoDB data models.
- Deployed and maintained the production application on cPanel hosting.

Freelance Full Stack Developer — Self-employed · Remote — Sep 2024 – Oct 2026

- **Oliv'Or** (olivor.tn) · Jun – Aug 2026: built a MERN e-commerce website for an olive oil brand, with product catalog, orders and user management.
- **BV Tech Marine** (bvtechmarine.com) · Sep – Oct 2026: designed and built a responsive React/Tailwind corporate website with SEO best practices.
- **EGT Naval Services** (egtnavalservices.com) · Sep 2024: React/Tailwind website for a naval repair company, with a service catalog and lead-generation contact flow.
- **MS Smart Trading** · Jun 2025 and **MS Équipements et Services** · Mar – Apr 2025: responsive, SEO-optimized React/Tailwind corporate websites.
- Managed the full client cycle on every project: requirements, UI design, development, deployment and hosting setup.

Full Stack Developer & BI Intern — IT-Grow · Internship · Tunisia — Feb 2024 – Jun 2024

- Developed features for a MERN e-learning platform: Node.js/Express REST APIs and React.js interfaces for courses and learning content.
- Built a learner progress-tracking dashboard, combining full-stack development with business intelligence.

PROJECTS

CARTHAGEOS — Multi-tenant SaaS ERP — github.com/Iyedkh · Personal project · In development — 2026

- Designing and building a multi-tenant cloud ERP covering multi-warehouse inventory, automated invoicing, financial tracking and role-based access control.
- Stack: React 19, Node.js, Express, MongoDB aggregation pipelines, Tailwind CSS, REST APIs.
